PRODUCT GUIDE

ELECTRIC HOISTS AIR HOISTS HAND CHAIN HOISTS LEVER HOISTS TROLLEYS

KITO®

PROVEN EVERYWHERE

Need a manual hoist with muscle?

Discover why our manual hoists are recognized as Canada's #1 choice for heavy duty applications. The difference is these products are thoughtfully engineered to be smaller, lighter, and stronger so that they stand up over long periods of time. The L5LB lever and M3CB hand chain hoists are available with an optional slip clutch that protects you and the hoist in the event of excessive overload.

L5LB Lever Hoists

Ideal for pulling, lifting, or tensioning the L5LB has proven its strength and durability in various gruelling applications. This industry-leading product is smaller, lighter, and stronger than any other lever hoist on the market.

FEATURES
- Patented compact, lightweight design
- Durable, high-impact steel housing
- Smooth & easy freewheel operation
- Safety tip hook and latch

AVAILABLE IN
- 3/4 to 9 metric tonne capacity
- Standard or slip clutch models

M3CB Hand Chain Hoists

Kito's hand chain operated hoists have earned a reputation for delivering superior performance and value. Exceptional, heavy-grade components make this a long lasting workhorse that tackles severe -40˚ C temperatures.

FEATURES
- Low hand-force operation
- Durable, high-impact steel housing
- Premium grade components
- Optional slip clutch

AVAILABLE IN
- ½ to 50 metric tonne capacity
- Standard or slip clutch models
- Hook, Plain, or Geared trolley mount

Need a powered hoist that exceeds your expectations?

Leading edge manufacturing techniques increase product quality and enhance performance. The smooth and quiet operation of our powered hoists and superior operating economics give you unmatched value for your hoisting needs. Some models of the ER2 feature, as a standard, an under-the-cover VFD that adds adjustable speed operation, and soft-start/soft-stop load control.

ER2 Electric Hoists

Leveraging today's most advanced hoisting technology; this high performance hoist exceeds the expectations of the world's most demanding users.

FEATURES
- Industry leading duty ratings
- Advanced smart brake technology
- Super-strength extended life load chain

AVAILABLE IN
- 1/8 to 20 metric tonne capacity
- 220/440/575 volt, 3-phase
- Single or Dual Speed
- Hook, Plain, Geared, or Motorized Trolley Mount

TCR Air Hoists

With 100% duty ratings, fine-feathering controls, and quiet operation, you can't go wrong with this workhorse.

FEATURES
- Outstanding feathering control
- Heavy duty self-adjusting brake
- Quiet external muffler

AVAILABLE IN
- 1/4 to 25 metric tonne capacity
- Pendant, Cord, or Manipulator control
- Hook, Plain, or Geared Trolley Mount

Need your tools to be portable?

Kito's ultra-compact hoists weigh less than you think, empowering you to take one into the field wherever you go. These small and light hoists make no compromises on durability, and will impress you with their smooth operation.

LX

LEVER HOIST

- ¼ and ½ tonne
- Pocket sized design
- Premium grade components
- Allows precision placement

CX

HAND CHAIN HOIST

- ¼ to 1 tonne
- Pocket sized design
- Premium grade components
- Allows precision placement

Need a workhorse on a budget?

For the everyday material handling challenges you face, these dependable hoists deliver value, no matter how you measure it. Low total cost of ownership and a workhorse reputation make the SEQ and CF series hoists a smart investment.

SEQ

1-PHASE ELECTRIC

- 1/8 - 1 tonne
- Dual speed adjustable (6:1) VFD controls
- Lightweight and compact
- Heavy-duty fan cooled motor

CF

HAND CHAIN HOIST

- ½ - 3 tonne
- High efficiency design
- Die cast aluminum housing
- Maintenance-free bearings
- Optional nickel-plated chain for anti-corrosion

Need a boost in productivity?

The smooth and precise adjustable speed operation on the ED hoists and the variable speed operation on the TCL hoists gives you improved productivity. These hoists can operate at very high speeds adding a dimension of versatility to your application.

ED

HIGH SPEED 115V ELECTRIC

- 100 – 480 kg
- Compact and portable design
- Built-in slip clutch protection
- High speed with low headroom

TCL

LUBE-FREE AIR POWERED

- ¼ - 1 tonne
- Outstanding feathering control
- Ultra-high speed operation
- Customizable speed settings
- Lubrication-free operation

Need to ease the stress of repetitive tasks?

The advantages of ergonomic controls are best understood from the operator's perspective. Repetitive tasks are made more comfortable and more efficient with easy one-handed operation.

EDCL

HIGH SPEED 115V ELECTRIC

- 100 – 480 kg
- Compact and portable design
- Built-in slip clutch protection
- High speed with low headroom
- Cylinder control

TCR

AIR POWERED MINI

- ¼ tonne
- Outstanding feathering control
- Heavy duty self-adjusting brake
- Quiet external muffler

ER2C

3-PHASE ELECTRIC

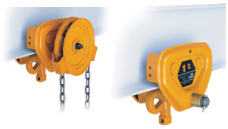

- 1/8 and ¼ tonne
- Industry leading duty ratings
- Advanced smart brake technology
- Cylinder control
- Super-strength extended life chain

Need to add versatility?

Not all trolleys are equal. Wheels on Kito trolleys and end trucks are built using advanced heat-treating techniques with the sole focus of reducing wear on the beam. You can expect lower maintenance costs by selecting a Kito trolley or end truck.

TS

GEARED OR PLAIN TROLLEY

MR2

3-PHASE MOTORIZED TROLLEY

HPC

TOP RUNNING OR UNDER-HUNG END TRUCK

THE TRUSTED CHOICE OF HEAVY INDUSTRY

We understand the demanding operational environments you work in. An understanding that has inspired us to deliver the world's most proven and trusted chain hoists. Kito has earned this reputation by answering the questions that matter to you when selecting a chain hoist:

SAFETY

Hoists are used by people. That's why we believe a hoist safety system starts with a reliable, well engineered product and ends with tangible operator training. Our free Hoist Safety & Repair Training programs are available to you so that the experience and specialized knowledge of our Technical Trainers can help make your worksite safer.

PERFORMANCE

Our focused use of cutting-edge hoisting technology allows us to deliver products that help you improve your productivity and cost efficiency. From the smooth and easy freewheel operation of the L5LB lever to the soft-start/soft-stop load control of the ER2, you can count on Kito's operator friendly performance.

DURABILITY

You can count on years of trouble-free hoisting because Kito hoists use quality components that stand up, even in the most severe conditions. Look no further than Kito chain. Made from heat treated alloy steel, Kito chain leads the industry in terms of total uniform strength and abrasion resistance.
